

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions of claims in the application.

Listing of Claims

1. (Currently Amended): A wireless communication device performing wireless communications with other devices, comprising:

a communication unit used for performing the wireless communications;

a communication control unit controlling said communication unit on the basis of a predetermined communication condition;

a position information acquiring unit recognizing a present position;

a communication condition determining unit determining a communication condition corresponding to position information acquired by said position information acquiring unit; and

a condition setting unit setting, in said communication control unit, the communication condition determined by said communication condition determining unit

~~A wireless communication device according to claim 1,~~ wherein said communication condition determining unit detects, based on the position information, a country in which said device is utilized, and sets an upper limit of the number of channels provided in this country as the communication condition suited to this country.

Amendment under 37 CFR § 1.111
Application No. 10/694,442
Attorney Docket No. 032065

2. (Original): A wireless communication device according to claim 1, wherein said position information acquiring unit acquires the position information by receiving radio waves from a GPS (Global Positioning System) satellite.

3. (Original): A wireless communication device according to claim 1, wherein said communication condition determining unit determines at least one of the number of channels, a time zone, an ID and a password as the communication condition.

4. (Original): A wireless communication device according to claim 1, wherein said communication condition determining unit detects, based on the position information, a country in which said device is utilized, selects the time zone of this country as the communication condition suited to this country, and determines a local time of this country on the basis of the selected time zone.

5. (Cancelled)

6. (Currently Amended): A wireless communication device performing wireless communications with other devices, comprising:
a communication unit used for performing the wireless communications;

Amendment under 37 CFR § 1.111
Application No. 10/694,442
Attorney Docket No. 032065

a communication control unit controlling said communication unit on the basis of a predetermined communication condition;

a position information acquiring unit recognizing a present position;

a communication condition determining unit determining a communication condition corresponding to position information acquired by said position information acquiring unit; and

a condition setting unit setting, in said communication control unit, the communication condition determined by said communication condition determining unit

A wireless communication device according to claim 1, wherein said communication control unit has a memory for storing the communication condition when a power source of said wireless communication device is switched OFF; and

wherein said condition setting unit sets the communication condition based on said stored communication condition when said ~~till the communications are started since a~~ power source of said wireless communication device ~~has been~~ is switched ON.

7-9. (Cancelled)
